# Chapter 1

## Title of the first chapter

This is the first chapter, here we will lay out some ideas as well as review some literature. In particular, it is natural to first begin with [GOD and Moses, -1445] and [Christ, 0].

### 1.1 First section of first chapter

Here is the first labeled section of this chapter. Here is an equation:

$$x = y, \tag{1.1a}$$

$$40 + 2 = 42 \tag{1.1b}$$

as you can see in , mathematicians like the letters  $x$  and  $y$ .

### 1.2 the second section

And here in section two of the first chapter, we can see a very nice paragraph.

Very nice. Very nice indeed. Very nice. Very nice indeed. Very nice. Very nice indeed.  
Very nice. Very nice indeed. Very nice. Very nice indeed. Very nice. Very nice indeed.

## The second chapter

And now we cant help but introduce a table. Here you go.

As you can see in , tables are very nice to look at.

col 1	col 2	col 3	col 4	col 5
val 1	val 2	val 3	val 4	val 5
5	6	7	8	9

Table 2.1: This is a description of the table.

# Chapter 3

# Chapter 3

In this 3rd chapter, we discuss some ideas before proceeding to the first section.

## 3.1 First section of chapter 3

In this first section of chapter 3, let us begin with a very nice paragraph.

Very nice. Very nice indeed. Very nice. Very nice indeed. Very nice. Very nice indeed.  
Very nice. Very nice indeed. Very nice. Very nice indeed. Very nice. Very nice indeed.

Very nice. Very nice indeed. Very nice. Very nice indeed. Very nice. Very nice indeed.

And then follow up with , a picture of some cats.

Figure 3.1: Despite their similarities, the first and second cat are actually slightly different. Can you spot how?

# **Chapter 4**

## **Discussion and future work**

This is a concluding section, we discuss our findings and then proceed to say what we would like to do in the future.

## **appendix**

This is an appendix containing additional content which doesn't fit nicely in the rest of the thesis. If you have some code, maybe consider putting it here?
